# Jim Baker

Jim Baker is a West Coast landscape artist who paints the lush and beautiful forests of Vancouver Island. His landscapes are an exploration into the harmony, cooperation and interdependence that work together to create the strong and vital forests.

Jim's technique is to generate a chaotic weave of brushstrokes, yet out of the chaos emerges the enriched image. Each brushstroke suggests and invites the viewer to see deeper into the painting. The use of highly energized brushstrokes and their suggestions leads the viewer to a highly personalized experience with the painting.

Jim Baker will present a collection of his paintings at [TOSH](#) (*The Old Schoolhouse Gallery*, Qualicum Beach) from June 26, 2023 to August 28, 2023.
